

K-Love Radio station operates on the frequencies 88.7 and 90.1 F.M. These stations serve my family on a 24 hour basis. K-Love radio station is the radio station myself and my family tune into the majority of the time. The music is uplifting and if it were to be replaced by LPFM, it would be a major hurt to my family and the entire community. This is one of the few stations which is not filled with commercials and is positive and encouraging in nature. Please consider the effect replacing LPFM would have on families, which are the backbone of our society.
